Subject: Application for Data Analyst / Purchase & Regulatory Professional Role

Dear Hiring Manager,

I am writing to express my strong interest in opportunities where I can leverage my comprehensive background in pharmaceutical purchase, procurement, and regulatory affairs, combined with my current advanced training in data analytics at TOPS Technologies. With over 3 years and 6 months of professional experience in the pharma and generic sectors, coupled with analytical upskilling, I bring a unique blend of domain expertise and data-driven problem-solving capabilities to your team.

Throughout my career, I have successfully managed end-to-end procurement and regulatory workflows. During my tenure as a Purchase Executive at Praveen Laboratories, I handled API raw material procurement, pre-shipment COA approvals from Quality Control, vendor qualifications, and change control procedures adhering to standard company SOPs. My background also includes coordinating purchase orders and payments for herbal ingredients and chemicals at Phyto Life Sciences Pvt. Ltd., as well as managing purchase planning and creating dossiers for formulated products during my time at BQM IMPLEX.

To further sharpen my ability to extract actionable insights from operational and supply chain data, I am currently pursuing a data analytics course from TOPS Technologies. This coursework has equipped me with strong technical skills in Advanced MS Excel, data manipulation, and reporting, allowing me to bridge the gap between complex pharmaceutical operations and analytical decision-making.

I am eager to bring my meticulous attention to detail, regulatory compliance experience, and newly acquired data analytics capabilities to a dynamic organization. Thank you for your time and consideration. I look forward to the opportunity to discuss how my background and skills align with your team's needs.

Sincerely,

Seema Jain

To the Hiring Manager / Human Resources Department,

Subject: Recommendation for Devanshi Gonawala – QA Engineer

Dear Hiring Team,

I am writing to enthusiastically recommend my friend and professional colleague, Devanshi Gonawala, for a position as a Quality Assurance Engineer within your team at **[**Codeat Infotech**]**. Devanshi is a dedicated QA professional with over 3 years of manual testing experience across web and mobile applications in both product-based and client-based projects.

Throughout her career, Devanshi has demonstrated strong expertise across a wide range of testing types, including functional, regression, smoke, sanity, usability, API, UI, and end-to-end testing. Her technical proficiencies extend to working with UTM and link-tracking platforms,

QR codes, analytics, payment flows, admin panels, role-based access, and modern AI application testing.

Her recent and past professional experience highlights her comprehensive skills:

- **Wizcoder AI Labs (Dec 2025 – Aug 2026):** Worked as a QA Tester testing web-based product and client projects covering user, admin, and Super Admin workflows. She tested LinkUtm (tracking link creation, QR codes, analytics, GA4 integration, UTM rules, and payment flows) as well as AI Voice Agent, RAG, real-estate, jewellery, gold directory, and blog management applications. She also performed API testing using Postman and Swagger, tracked defects in Click Up, and began exploring Playwright-based web automation.
- **Vasundhara Infotech (Sep 2024 – Oct 2025):** Served as a Jr. Quality Assurance professional, performing manual testing of Android and iOS applications and websites across devices and browsers. She gained exposure to JMeter for load testing and explored Appium with Python for automation.
- **Significant Infotech (Jan 2023 – Jul 2024):** Worked as a Jr. Quality Assurance tester, testing various Android applications (such as Teleprompter, Keyboard, File Transfer, Alarm, Photo Editor, Video Player, and Doc Scanner) and executing basic API testing using Postman.

Academically, Devanshi holds a Bachelor of Commerce (B.Com.) from Sir K.P. College of Commerce, VNSGU, and is a Certified Manual Tester from TOPS Technology.

Devanshi’s sharp eye for detail, strong cross-functional collaboration with developers, and adaptability with emerging testing tools make her an exceptional fit for a dynamic engineering organization. I am confident that she will be an immediate and valuable asset to your team.

Please feel free to reach out to me should you require any further details regarding her candidacy.

Sincerely,

[Seema Jain]

Subject: Application for Data Analyst / Purchase & Operations Analytics Position – Seema Jain

Dear Hiring Manager,

I am writing to express my strong interest in joining your organization in a role that bridges analytical operations and supply chain management. As a dedicated professional with a background in pharmaceutical purchasing, vendor management, and regulatory affairs, I am currently expanding my technical expertise by pursuing a **Data Analytics course at TOPS Technologies**.

Combining my domain experience with modern data analytics tools equips me to transform complex operational data into actionable insights. My core qualifications include:

- **Analytical Upskilling (TOPS Technologies):** Currently undergoing rigorous training in data analytics, enabling me to leverage advanced data interpretation, visualization, and data-driven problem-solving for business optimization.
- **Procurement & Supply Chain Operations:** Currently serving as a Purchase Executive at Praveen Laboratories since May 2024, managing API raw material procurement, pre-shipment COA approvals, and vendor qualification compliance.

- **Regulatory Affairs & Documentation:** Previously worked as an Executive Regulatory Affairs at BQM IMPLEX, handling purchase planning and preparing dossiers for formulated products.
- **Technical Foundation:** Holds a Master of Science (M.Sc.) in Biotechnology and a Bachelor of Science (B.Sc.) from Mumbai University, complemented by advanced computer skills and proficiency in MS Excel.

I am eager to bring my unique blend of domain knowledge and newly acquired data analytics capabilities to your team to improve efficiency, streamline purchasing workflows, and support data-backed decision-making.

Thank you for your time and consideration. I look forward to the possibility of discussing how my skill set aligns with your needs.

Sincerely,
